

# Did you know...?

In September 2007, every teacher will have  
**200 minutes of Preparation Time.**

In 1999, teachers had 160 minutes per week.

That means teachers will have  
**1,536 more minutes per school year**  
to spend planning, preparing lessons and  
assessing student work!

This increase in Prep Time is due to ETFO's  
negotiations at the bargaining table!

## Our Collective Agreement... It's a Treasure of Information!
